

## The Campus

The Antioch Seattle campus is conveniently located in two modern buildings in the Belltown neighborhood, near Seattle's downtown core and just a few short blocks from Seattle Center and the Space Needle. In the main building are classrooms, faculty and staff offices, a library, computer facilities, an art studio, lounge and study spaces, a bookstore and a café. Metered and other paid parking is available adjacent to the campus, together with easy access to Metro bus lines. The campus is designed to be accessible to everyone, regardless of physical ability.

Adult learners and the great majority of the Antioch Seattle faculty generally prefer small group discussions rather than lectures. As a result, Antioch classrooms are relatively intimate – with most designed for 20 or fewer students – and to facilitate interchange, they are arranged seminar style with tables and chairs. Central atrium spaces on each floor of the main building are comfortably furnished and class discussions often spill out into these spaces between class sessions and during breaks. The result is a lively intellectual atmosphere in which students learn from one another as well as from their instructors.

The campus bookstore, located on the first floor, stocks textbooks, general reading material likely to be of interest to students, school supplies, snacks, greeting cards, clothing and other items.

## Disability Support Services (DSS)

Antioch University is committed to providing reasonable accommodations to qualified students with a disability to ensure all students have equal opportunity to benefit from and have access to programs and services.

The DSS Office provides accommodations for students with disabilities based on the nature and severity of the disability. Students must register with the DSS office before accommodations can be implemented. Accommodations may include, but are not limited to: extended time on assignments, interpreters, note taking, books on CD, large print, adaptive equipment, recorded class sessions and priority registration.

All students requesting accommodations must submit documentation, dated within the past three years, from a professional (medical doctor, psychologist, psychiatrist, neuro-psychologist or other professional diagnostician) to the DSS Office. Documentation must be in writing and include a detailed description of the disability, including any limitations and recommendations. Contact the DSS Office as early as possible so individual needs can be determined and accommodations provided in a timely manner. All information is confidential.

Please contact the DSS Office at 206-268-4151 or 206-268-4403/TTY 206-728-5745 or e-mail [DSS@antiochseattle.edu](mailto:DSS@antiochseattle.edu) for any additional information.

## Library and Computer Services

Located on the first floor by the atrium, the Antioch Seattle Library offers both print and non-print materials. These support the University's curriculum and its commitment to teaching for diverse learning styles. The collection is accessible through the online catalog on the library's web page at [www.antiochseattle.edu/lib](http://www.antiochseattle.edu/lib). The library offers efficient document delivery and interlibrary loan services as well as course reserves.

Antioch Seattle has licenses to numerous academic databases with full-text journal articles and e-books. Through the library, members of the Antioch community have access to a vast collection of electronic resources. All library staff is trained to help access these.

To augment the on-campus print collection, currently registered Antioch Seattle students and core faculty can be reimbursed the cost of a library card at one public research library. This could include the University of Washington, Seattle University, community colleges or any research library close to home. See the

librarian for reimbursement procedures.

Computers, scanners, a printer and a copy machine are available during the library's liberal open hours. (Please see the library web page for the current schedule.) The computer classroom (room 105) hosts computer classes that provide training to students with varied research and technology skills. In the library, students also can view films from a growing DVD and online film collection. In addition, the library sponsors regular artistic and other cultural events of interest to the campus community.
